

# SpeedHook®

## REDUCE OPERATOR FATIGUE AND EXTEND CHAIN LIFE

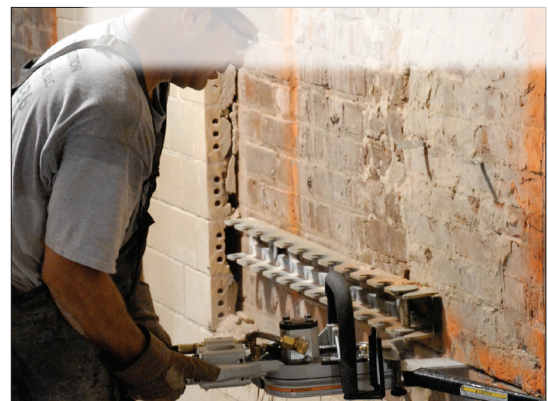

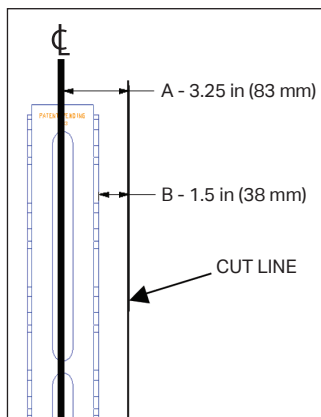

SpeedHook® is an ingenious accessory designed to support the weight of ICS® power cutters, dramatically reducing operator fatigue, ensuring straight cuts, and extending chain life. Attaching quickly and easily, SpeedHook is convertible to left-hand or right-hand operation, and expandable with 42-inch (107 cm) sections. SpeedHook has been redesigned to include a new plastic cam to ensure even straighter cuts with less operator know-how.

### Important:

The SpeedHook is available for ICS hydraulic power cutter models: 853PRO Series, 880F4 Series, 890 Series and the 814PRO. And the pneumatic power cutter model 701-A.

| SpeedHook® SPECIFICATIONS                           |                 |
|---|-----------------|
| LENGTH  | 42 in (105 cm)  |
| WIDTH   | 3.5 in (89 mm)  |
| WEIGHT OF RAIL                                      | 18 lbs (8 kg)   |
| DISTANCE FROM CUT LINE TO $\phi$ OF ANCHORS, A      | 3.25 in (83 mm) |
| DISTANCE FROM CUT LINE TO $\phi$ OF OUTSIDE RAIL, B | 1.5 in (38 mm)  |
